

I want to be...

Julienne wants to be a pilot. Malek has decided to become a plumber. Gustave sees himself as a surgeon, Samya as a policewoman... Lumberjack, nurse, cook, concert performer, soldier, lawyer, artist, teacher, farmer, electrician, mechanic... For Schola ULB, pupils are first and foremost children with dreams and plans. They work hard to succeed, and this success can take many forms. These future adults believe in their chances and in their future. They are full of ambition. Let's shine a spotlight on this energy, this determination, this desire to succeed!

This dynamic gave rise to a project called "Je serai..." ("I want to be..."). Resulting from a collaboration between the Schola ULB non-profit association and the photographer Rip Hopkins, it marks the 30th anniversary of the Tutoring Programme.
